

COLOMBIA EXHIBIT A

POST-ADOPTION REQUIREMENTS

POST-ADOPTION REQUIREMENTS

In accordance with the provisions of the Adoption Services Agreement, the adoptive parent(s) (AP) must fully comply with, and is solely responsible for paying all costs and fees associated with, all post-adoption requirements imposed by AGCI, the sending country, the jurisdiction in which the AP resides, or any other government authority with jurisdiction over the adoptive placement. Post-adoption requirements may differ from case to case. Following is a summary of the post-adoption requirements anticipated regarding Colombia:

1. AGCI and the country of Colombia require post-adoption reports be completed after placement. For families adopting a single child under the age of 8, reports are due at 3, 6, 12, 18 and 24 months from the date the adoption is finalized. For families adopting a child 8 and older, or a sibling group, additional reports are due at 30 and 36 months from the date the adoption is finalized.
2. Post-adoption reports will be prepared and signed off by a licensed MSW or LCSW and must be written to the below guidelines. The assigned social worker must complete the home visit no more than 30 days prior to the report due to AGCI.
3. A copy of the agency license must be attached to all post-adoption reports. One original notarized and apostilled report must be submitted for each report due, along with 10 to 15 photos of the child. Photos must meet the requirements below. The AP will be responsible for providing all necessary information to complete the mandatory post-adoption reports and hereby acknowledges that the AP is fully responsible and liable for the non-completion of all post-adoption requirements by prosecution.
4. When adopting siblings, separate reports must be prepared for each child.
5. Post-adoption reporting fees are due to your local provider per their fee policies and protocols. AGCI encourages all families to pay their post-adoption reporting fees before travel.

PHOTO REQUIREMENTS:

- Please include 10 to 15 photos—must include at least one family photo, and some close-up photos of the child's face and full body. Please make sure that your child is appropriately clothed in all photos (swimsuits are acceptable).
- Photos can be emailed by the family at the time of sending the post-adoption report.

The AP takes responsibility for giving the following post-adoption report example to their social worker to ensure that all post-adoption requirements are met at the time of the post-adoption visit. Please make sure that all reports are on agency letterhead and are written in a narrative style in paragraph form. Do not complete the report in a question-and-answer format.

U.S. CITIZENSHIP AND RE-FINALIZATION OF ADOPTION

CERTIFICATE OF US CITIZENSHIP

The adoptive family must obtain a Certificate of U.S. Citizenship or U.S. passport for the child as soon as the child is eligible.

RE-FINALIZATION OF ADOPTION

There are several reasons why re-finalization of the adoption in the United States is beneficial to the adoptive family and the child; and, in some situations, U.S. Citizenship and Immigration Services (USCIS) may require that the adoptive family re-finalize adoption in the United States as a condition of granting an orphan visa and/or of U.S. Citizenship for the child. Therefore, as soon as practicable after the child arrives in the United States, and, in any event, within six months after arrival, the adoptive family shall take all steps reasonably necessary to re-finalize adoption of the child in the adoptive family's state of residence. In the alternative, the adoptive family may participate in a procedure which provides a new birth certificate for the child in the adoptive family's state of residence without re-finalization, if such procedure is available and allowed in the adoptive family's state of residence, and if such procedure will

satisfy USCIS and state requirements for U.S. Citizenship for the child. The adoptive family should be aware that in some situations, failure to promptly re-finalize an adoption may lead to increased post-adoption requirements and expenses.

DEMONSTRATION OF COMPLIANCE

The adoptive family must demonstrate compliance with the provisions of this section by providing AGCI with (1) copies of the child's Certificate of U.S. Citizenship or U.S. passport and (2) a certified copy of the United States adoption decree or judgment of adoption and/or new U.S. birth certificate for the child. These documents shall be provided to AGCI within 15 days of the date that the adoptive family has obtained or received them.

I/We understand and accept these post-adoption requirements.
